PORTAFOLIO DE DISEÑOS

Porcelanatos Tecnológicos ® | Piedra Sinterizada

ÍNDICE

CON NOSOTROS

TODO ES POSIBLE

UN VIAJE DE LA IMAGINACIÓN A LA REALIDAD...

En el corazón de Cancún, Quintana Roo, México, nació en el año 2023 una empresa con una visión audaz: **Porcelanatos Tecnológicos**. Surgió de un profundo conocimiento de la industria inmobiliaria y una clara percepción de la necesidad de un cambio radical en los materiales para acabados.

El problema: Un sector estancado en soluciones tradicionales, carentes de innovación y modernidad. Una demanda insatisfecha de materiales que respondieran a las exigencias del presente y del futuro.

La solución: La fusión de la belleza atemporal de la piedra natural con propiedades superiores, dando origen a las **placas de piedra sinterizada** de Porcelanatos Tecnológicos.
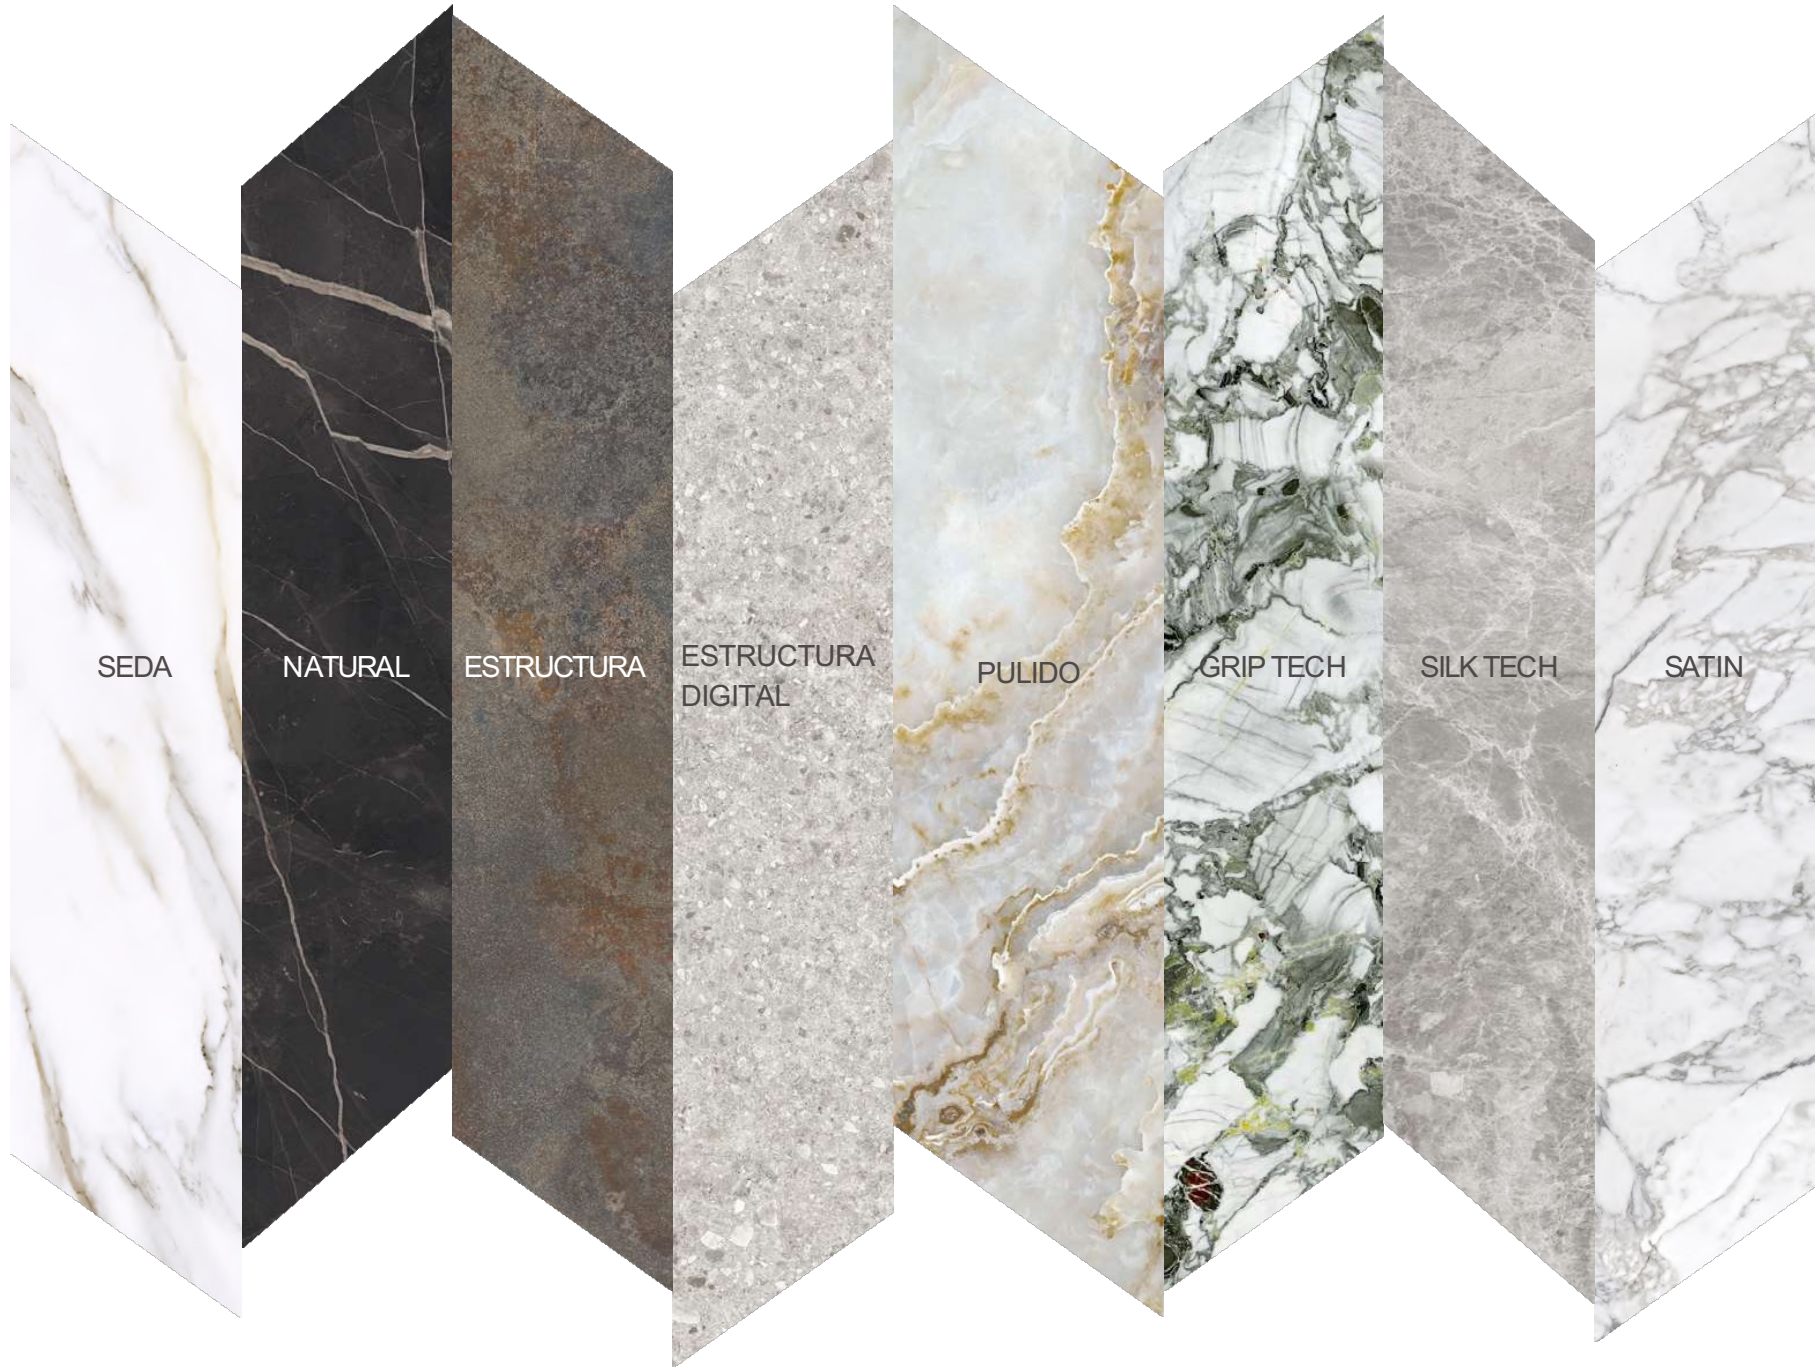

Nuestro propósito: Trasciende el mero negocio. Buscamos ofrecer a nuestros clientes lo que realmente necesitan: materiales de vanguardia que protejan y embellezcan el patrimonio de su vida.

Nuestra trayectoria: Iniciamos nuestro camino en el Caribe Mexicano, conquistando destinos como Cancún, Tulum, Playa del Carmen y Mérida. Pero nuestra ambición no se limita a una región; ya hemos expandido nuestra presencia a Guadalajara, Puerto Vallarta y Ciudad de México.
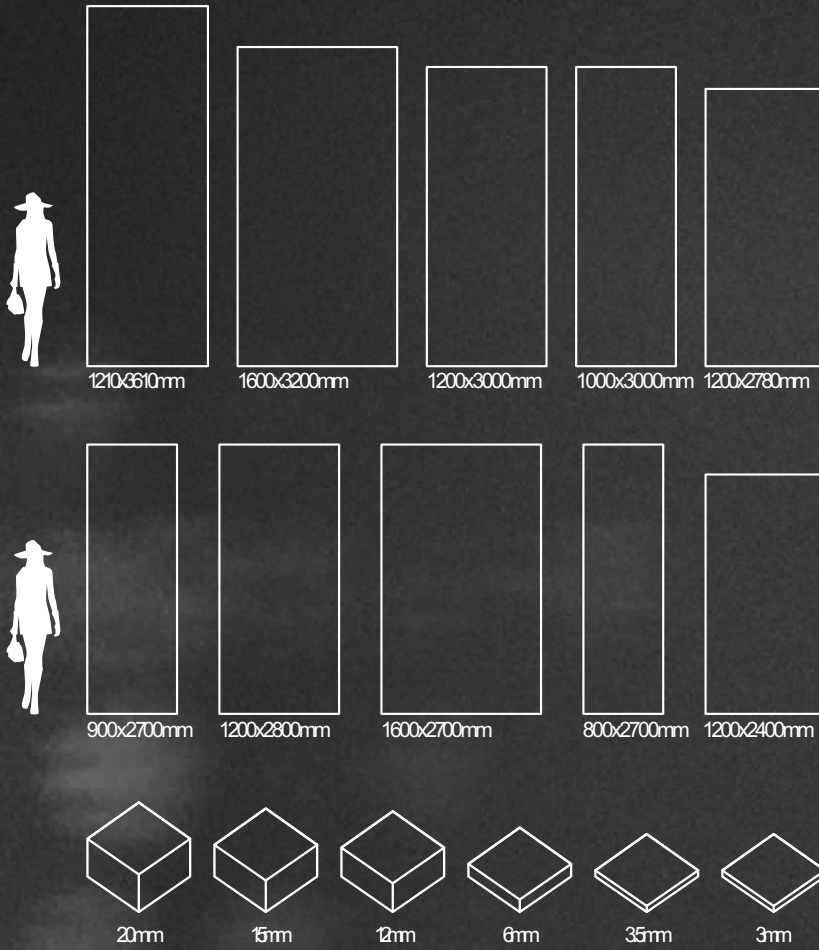

Nuestra promesa: La confianza de nuestros clientes es nuestro mayor activo. Nos comprometemos a proporcionarles los mejores materiales, aquellos que perdurarán en el tiempo y se convertirán en la base de espacios excepcionales.

Nuestra visión: Somos pioneros en la **revolución de la industria de la construcción y el diseño**. Queremos adelantar el futuro, traerlo al presente, para que todos puedan disfrutar de la belleza, la funcionalidad y la durabilidad que solo Porcelanatos Tecnológicos puede ofrecer.

Porcelanatos Tecnológicos: Más que una empresa, somos una historia de innovación, compromiso y pasión por la creación de espacios excepcionales.

VENTAJAS Y APLICACIONES

Soluciones creadas para brindar excelencia hasta el más mínimo detalle.

TAL PARA CUAL…

La tecnología, la sofisticación y la estética se unen en un solo material, convirtiéndose en parte integral de la cultura del diseño de interiores y dando forma concreta a superficies verticales y horizontales totalmente únicas. Porcelanatos Tecnológicos fusiona la innovación tecnológica con la tradición.

ENCIMERAS Y BAÑOS

El espesor ultra-reducido de 6 mm, junto con la tecnología avanzada, permite que una banda de luz lo suficientemente potente viaje a través de las placas y retroilumine el material.

LA SOLUCIÓN ESTÉTICA PARA TU BAÑO.

Soluciones mesuradamente seleccionadas hasta el más mínimo detalle..

TOQUE ACUÁTICO

PERMANENCIA SIN IMPORTAR LA ÉPOCA.

La mesa juega un papel crucial en el hogar.

En este caso, se trata de una verdadera obra maestra que es no absorbente, antibacteriana, fácil de limpiar y resistente al desgaste.

Sus sensaciones táctiles y su apariencia sofisticada y atractiva se mantendrán inalterables a lo largo de los años.

Las placas PorceTec ofrece al mundo del diseño de interiores superficies de exhuberante belleza que combinan el encanto del mármol más preciado, la evocación de las rocas erosionadas por el paso del tiempo y las últimas tendencias del sector.

Bookmatch

"Bookmatching" or "open book" is a term used to describe the possibility of continuously laying tiles between them to obtain a mirror composite effect. The aesthetic effect that has hardly been described is particularly popular in the field of marble workers and is synonymous with high-quality mining in quarries.
